“ RIP Nancy. We had spoken on the phone in late October. I use to hang out with Nancy in the early 90s. We would go out to eat, movies, talk & socialize. One thing I will say is that she LOVED her dogs. I just found out about her passing, When we spoke she never went into about the severity of her illness, instead she wanted to know how my dogs were doing. I will miss her, but I will have the memories we shared in my heart.

“ Nancy was my doggy friend, which is much different than just a friend. I was introduced to her at a dog show in Indiana. She held so much dog knowledge in her mind and so much love in her heart I don't know how she didn't burst. Nancy was kind to everyone and everything. She could talk you to sleep and still be talking when you woke up. I loved to listen to her, and all her idea's and plans. She was taken too soon and way to quickly, there was so much more we wanted to do together. Her favorite dog breed was the Glen of Imaal terrier but we co-owned a Russell Terrier together. We traveled together and showed together when we could and although distance limited our time I enjoyed every minute. Nancy you are going to be greatly missed not only by myself but by the dog world as their greatest supporter. Enjoy the dogs in heaven and we will meet again.
