“ Dea always made sure everyone felt welcome into the family. Even though I was her daughter-in-laws twin sister, she always made sure I was included. She opened her home for a meal after my first husbands funeral. Her friends put the entire meal on for us and she made sure I didn't have to worry about anything that day except for the funeral and how much I was loved. Thank you Dea for having such a kind heart and loving everyone you came in contact with. We will miss your kind soul and the beauty you brought to everyone's world. RIP mama Dea!
