“ I have many great memories of my dad that will live in my heart and mind forever. I feel blessed to have him here with me so many years. Dad lived a full life, loved to travel, dance, socialize and be part of everything around him. He never sat down, and was committed to doing it right the first time, and the American way. During his life on earth, he accomplished and did many things that only a few will ever be able to see or do.

As I said to him before, in many ways I inherited several strong traits from him.

Most of all, I thank him for loving me, passing on the traits of adventure, commitment, skillsets that help get things done, and most of all for giving the same heart that is open to most everyone, listens, feels deeply and loves.

I love you dad, may peace go with you... your daughter, Claudia

“ *Claudia, I'm so sorry for the loss of your father. I wish we could've met him! I have a strong suspicion that your spirit and zest for life came from him. I love that he lived life to the fullest for as long as possible - may we all be so fortunate!*
